Dos

Unwrap all packaging materials and place the components on suitable surface to prevent scratching your product.

This product is suitable for all year outdoor use, but we recommend that a furniture cover be used to add additional protection to your product when not in use.

PLEASE NOTE - All cushions should be stored indoors after use. The cushions are not waterproof.

During server weather conditions, including high winds, rain, hail, thunderstorms, extreme heat and cold temperatures, the product should be stored inside in a cool, dry place.

During prolonged sunny spells, we recommend that furniture should be covered over with a protective furniture cover and/or stored inside when not in use. This will help prevent harmful UV rays from damaging and discolouring the material.

To best preserve the material (synthetic rattan) we recommend the use of a UV protector spray like Fabsil. This will block the harmful UV rays from damaging the material.

Before storage, ensure that the product is clean and dry.

To clean, wipe down with a sponge and warm soapy water and wipe with a clean, dry cloth.

As small animals may consider your cushions a cozy sleeping place we do not recommend they are left out overnight.

Due to the stain resistant nature of these cushions they should require minimal cleaning, please do not bleach, do not tumble dry, do not iron or dry clean. Clean with a damp cloth.

Never drag furniture when moving it, always lift it.

Never tilt the product during use.
